Verse 1

```
1                 6m       5           4
What Has been Read and heard
                    5
Promises in the word
1             6m 5            4
You created humanity
                            5
You're Guarding it jealously
```

Bridge

```
4/6                              5/7
When oceans roar and mountains fall
                4/1                             5/2
You're close to hear my prayer and answer my desperate call
4                          5
When fearful, tired and alone
              4/6                          5/7
Then you are always near, when I'm with you I'm home
```

Chorus

```
1                            5
Faithful, Lord you are so faithful
        2m9                8
I will trust in you, I rely on you
1                            5
Faithful, Lord you are so faithful
          8             4/6
Wholy in awe     Whole in awe
```

Verse 2

```
1              6m    5     4
No powers can pry Apart
                              5
Separate us from your heart
1                      6m       5      4
Though struggles you lead us through,
                       5
Say we can trust in you
```

Bridge

Chorus x 2
